

VILLAGE OF SARANAC

Cooperation, Collaboration and Consolidation of Services Plan

Prepared Pursuant to Public Act 63 of 2011

Economic Vitality Incentive Program

January 28, 2014 (Revised April 11, 2014)

Available for public review at 27 N Bridge Street, Saranac (Village Office) and at www.villageofsaranacmi.org

PLANNED SERVICE CONSOLIDATIONS – *previous year status update*

<u>Description of Service</u>	<u>Participating Units</u>	<u>Estimated Cost Savings</u>
Emergency Medical Services & Fire Protection	Townships of Boston, Keene, Easton & Berlin	\$75,000 (annually)

As of this time last year, the Saranac Community Volunteer Fire Department was awaiting a signed Amended and Restated Emergency Medical Services and Fire Protection Agreement from Easton Township and Berlin Township, already having received the signed document from Keene Township. Both Easton and Berlin have since submitted signed agreements, Easton's as presented and Berlin's revised to eliminate proposed cost sharing for Capital Outlay items. It should be noted, that Berlin Township had been operating under an outdated agreement, that did not include cost sharing for Capital Outlay items, so the new contract in essence, mirrors the old. This concludes agreement revisions and assures continued relationships with the surrounding Townships, which in turn assures an annual cost savings estimated at \$75,000.00.

Rail Trail Construction – Ionia to Saranac	City of Ionia, County of Ionia, Michigan DNR, Michigan DOT, Friends of Fred Meijer Grand River Valley Rail Trail	\$100,000 (one time)
--	--	----------------------

The Village of Saranac became involved in the planning/development process of this project in November 2010. The project was completed in late summer 2013. A ribbon cutting ceremony was held in November 2013. This concludes the Rail Trail Construction (Ionia to Saranac) project. No barriers were encountered during this project.

Election Services	Boston Township	\$1,000 (bi-annually)
-------------------	-----------------	-----------------------

Election Law Amendments PA 523 and 551, which took effect March 27, 2013, eliminated September general elections for villages. Beginning in November 2014, the Village will realize a bi-annual cost savings of approximately \$1,000.00, due to the fact that Boston Township is now responsible for conducting Saranac Village elections. No barriers have been encountered.

Road Maintenance Projects

Ionia County

7 – 14% (per project)

In the past, the Village of Saranac has entered into road maintenance projects with Ionia County. Fleis & VandenBrink, engineers for the village and the county estimate that both entities realize an approximate cost savings of 7 to 14% of the project cost, when collaborative efforts are utilized. This includes cost savings on engineering services as well as construction. It is surmised, that combining the projects may attract more competitive bidders, resulting in a cost savings for both entities. There are currently no collaborative projects slated for the 2014/2015 budget year. However, the village DPW Director communicates with county personnel on a regular basis (quarterly, or more often if opportunity arises), as it pertains to road maintenance collaborative opportunities.

PLANNED SERVICE CONSOLIDATIONS – new

Saranac Promise

Saranac Community Schools

unknown at this time

Since October 2013, Sharon Darby, Saranac Village President, has been meeting monthly with members of Saranac Community Schools, to discuss collaborative efforts for a “Saranac Promise” program. The Promise program has the potential to bring together private and public dollars to improve economic development to the area, thus helping students to realize a college or vocational education. As in other community “Promise” programs, we are expecting to attract quality labor to the area, improve outcomes for local students, improve student behavior, increase local job opportunities, as well as increase housing prices and/or property values. There are three phases to the program 1) utilizing existing grants and FASFA completion for all, 2) partial assistance for students and 3) full assistance for students. The anticipated barriers, are funding of the program. Full implementation for all graduates of Saranac Community Schools, is targeted for June 2016.
